GUMDROP

CAMP

Our Gumdrops patch consists of a rocket filled with sayings about 4-H, like, loyalty, respect, and friendship. We also have our team name (Team Gumdrops) written across the top & bottom of the badge, along with Apollo the name that ~~gumdrops~~ ~~is~~ ~~derived~~ ~~from~~ is derived from. Our names are included on the patch because we are a ~~part~~ ^{part} of this mission. Our names are also on this to show the teamwork amongst the team. The team started ~~in~~ when 14 intrepid trainees left from Wisconsin for an epic adventure to a place. That place is space camp. We were split into groups and we all immediately "clicked". For the few days that we are here, we will be on a mission aboard the Endeavor so we have Endeavor written in one corner of the square that we drew. We also wrote NASA to indicate that if we were to go into space NASA would fly us. So now you know why we put the things the things we did on our mission badge.
