## WHAT IS A HUNTER?

The modern sport of show hunters derives from the very old and classic sport of field hunting. Today's show hunter is ridden both on the flat and over fences. Those horses should be quiet, calm and mannerly; yet elegant.

On the flat they are judged on their gaits, their way of going, their manners and suitability to their job. Hunters should have long, low ground covering strides and carry a steady, even pace.

Over fences they are judged on pace, manners, jumping form and style. A typical hunter course consists of approximately 8 jumps that simulate natural obstacles. The jumps are set at a consistent height, ie: 2'0", 2'3", 3'0", etc. The courses are carefully measured and should have a set amount of strides in-between the jumps. A standard stride is 12 feet.

While many breeds are used for hunters, use a breed that can produce the longer strides and jumping form needed in a successful show hunter.

## WHAT IS A JUMPER?

A Jumper is a horse or any breed that shows strictly over fences. A typical jumper course consists of 10 - 16 fences. The jumps are brightly colored and often difficult types of fences such as triple bars, water jumps, etc.

A Jumper course is designed to test a horse's athletic ability so the jumps are not only high but often wide. As well, the strides between the jumps can be set to create problems for the horses and riders to solve.

There are many levels of jumpers and many, many types of classes. In the most common jumper class, a horse and rider will jump the first round, then, if they are clean, in other words no faults, they will come back and jump a second round over a higher but shorter course for speed with the best time and score winning.

While any horse with enough jumping ability may be a jumper, most often Thoroughbreds and European Warmblood breeds are most suited for this job.

Jumpers are an exciting spectator sport and quickly rising in popularity.

At this show the classes are hunter classes except for Obstacle Jumping which is a timed event.

## HUNTER HACK:

1. Horses are required to jump two fences. (Jumps do not need to be set in a line. If the jumps are in a line they are to be set 36-60 feet apart with a 12 foot interval between jumps.)
2. Horses will be asked to walk, trot, and canter both ways of the ring. At the discretion of the judge contestants may be asked to hand gallop, pull up and stand quietly following the last fence.
3. Class will be judged on flat work, manners, way of going, style over fences and even hunting pace.

4. Placing for the class will be determined by allowing the maximum of 30% for flat work.

\* Faults over fences are to be judged as in working hunter.

\* Faults on rail work include:

- 1) Being on wrong lead.
- 2) Excessive speed or slowness at any gait.
- 3) Breaking gait.
- 4) Failure to take called for gait when asked.
- 5) Head carried too low or too high.
- 6) Nosing out or flexing behind the vertical.
- 7) Opening mouth excessively
- 8) Stumbling or falling.

**OBSTACLE JUMPING: \*\*Classes to be run Sunday**

Each rider will have 45 seconds to complete their pattern. Points will be assigned to each jump. At the bell the rider enters the ring and takes the jumps in any order they choose. They may not jump the same jump without separating it by a different jump. If a rail is knocked down that jump is out of the rotation for that rider.

**MINI EVENT:**

Grand, Reserve and eight (8) top ten ribbons will be awarded. Disqualified entries are NOT eligible for awards. Dressage rides of less than 50% are not eligible for awards. The placings will be judged on points awarded in Cross Country, Stadium Jumping, and Eventing Dressage. You must sign up for MINI EVENT on the hunter/dressage entry form. Indicate Advanced or Intermediate. All classes will be run on Friday of the show. Advanced riders will use Novice B test. Intermediate riders will use Novice A. Dressage tests are available at [www.useventing.com](http://www.useventing.com) go to resources for competitors/riders then to Dressage tests to download a copy.

2. Horse to jump a maximum of 8 fences.
3. One change of direction is mandatory.
4. The top element of all fences must be securely placed so that a slight rub will not cause a knock down.
5. The class will be judged on manners, way of going, and style of jumping.
6. Horse shall be credited with maintaining an even hunting pace that covers the course with free flowing strides.
7. Preference will be shown to horses with correct jumping style that meets fences squarely, jumping at the center of the fence.
8. Judges shall penalize unsafe jumping and bad form over fences, whether touched or untouched, including: twisting, incorrect leads around the ends of the course, or cross-cantering.
