
Welcome to the 54th National 4-H Dairy Conference!

The 2008 planning committee welcomes you to Madison, Wisconsin, and the 54th National 4-H Dairy Conference. Each aspect of the program has been designed to expand your understanding and appreciation of the dairy industry.

We challenge you to take advantage of this exciting opportunity to build on your previous experiences and to share what you learn with others in your home state or province. Many of the programs will be offered as learn-by-doing sessions to help you practice as you learn new skills. Not only will you be learning about production aspects, feeding, management and genetics, but you will also learn to conduct hands-on dairy activities in your club. In addition, you will be introduced to new concepts in dairy production and marketing. A full and diversified program awaits you.

As the conference unfolds, we look forward to getting to know you and helping you make the week a highlight of your career.

Gary Fredricks
Chairperson Planning Committee
