

Appendix E - Wood Resource Contacts

Project Funding (for unique waste reduction projects)

Council of Great Lakes Governors; Fred Kuzel, Director of Great Lakes Biomass Program, 312/407-0177

Great Lakes Protection Fund; 35 E Wacker Dr, Ste 1880, Chicago IL, 60601; David Rankin; 312/201-0660; Ecological Protection Strategy

Lake States Wood Utilization Program, Wisconsin Department of Commerce, 201 W. Washington Ave., Madison, WI 53703, 608/266-1386

Provides up to \$100,000 in funding for projects related to the more efficient utilization of wood resources or the recovery of wood residues. Applications accepted any time.

Recycling Markets Development Board (RMDB); funding available for project loans or early planning grants relating to the recovery, reuse and recycling of post industrial, construction and demolition wood waste, scrap wood and pallets. RMDB encourages projects that will produce new products or reuse of wood waste materials; 608/264-7832

U.S. Forest Products Laboratory, Ted Laufenberg, 1 Gifford Pinchot Drive, Madison, WI 53705, 608/231-9501

Offers a broad range of technical information and assistance to the forest industry, including the recovery of residues. On the economic issues of handling residues, contact Dave McKeever 608/231-9365; for the use of residues in composites, contact John Youngquist 608/231-9398.

Wisconsin Department of Natural Resources, Sheila Henneger, Waste Reduction and Recycling Demonstration Grants, P.O. Box 7921, Madison, WI 53707, 608/266-9426

Has \$1 million a year available for 50 percent matching grants of up to \$150,000 for either innovative projects or targeted materials. Two application periods in 1998, March 2nd and August 1st.

Wisconsin Energy Bureau, Dan Moran P.O. Box 7868, Madison, WI 53707, 608/266-1067

Provides both financial and technical assistance. Financial assistance is limited to the end users of wood and other renewable resources for energy. Technical and information assistance includes a list of facilities in the state that burn wood for energy, and exploring the use of wood as an energy source at state owned facilities. Has funded and is currently doing a number of projects on pallets.

Regulatory

Sukup, Laurel, Business Sector Specialist for the Wood Products Industry, Wisconsin Department of Natural Resources, 715/365-8936; sukupl@dnr.state.wi.us

Technical Assistance
