Programming Areas

- Wisconsin's Woodland Leadership Institute
- Wisconsin's Woodland Leadership Institute is designed to educate and equip woodland owners to become leaders in their local communities on issues related to forestry, sustainable forest management, and public policy and to help them become active in these issues at the local, regional, and statewide levels.
- Wisconsin's Master Woodland Steward Program
- Wisconsin's Master Woodland Steward Program is for woodland owners interested in learning more about their woodlands and sustainable forest management practices. The Master Woodland Steward Program combines classroom instruction and outdoor experiences to teach participants the basics of forest ecology, silviculture, forest management techniques, managing for wildlife habitat, business decision and planning tools, including sources of technical and financial assistance.

Audience and Partners

- Wisconsin Woodland Owner Organizations
- Build capacity within Wisconsin's Woodland Owner Organizations to meet the needs of their membership
- Wisconsin's Woodland Owners
- Provide programming and publications to help them become better stewards of their woodland properties.

- Forestry Professionals
- Provide programming and publications to help them stay current with changing regulations and technology.
- DNR Division of Forestry
- Partnership to address the needs of Wisconsin's non-industrial private forest landowners.

Team Membership

NOTE: Select your team(s). If you are a member of a team that is not listed, please enter it in the "Other" line below.

- Community-based Leadership Programs
- Organizational Development
- Natural Resources – Forestry Ecology & Management
