---

## Programming Areas

- Groundwater hydrology and quality.
- Promoting citizen-based water management strategies in the Wisconsin Idea tradition.
- Groundwater policy and law.
- Groundwater non-point pollution research and education.
- Watershed management

---

## Audience and Partners

- River and watershed stewardship groups
- State agency staff
- Agricultural organizations
- Concerned citizens

---

## Team Membership

- Natural Resources – Water – General

---

## Educational Resources

### Publications

- 2004. Investigation of nitrate in groundwater - Red Springs Area of the Stockbridge-Munsee reservation. Report to the Stockbridge-Munsee Tribe of Mohican Indians. Center for Watershed Science and Education, University of Wisconsin - Stevens Point. 16 p. Kraft, G.J., D.J. Mechenich, and B.A. Browne.

- 2004. Nitrate and pesticide penetration into aquifers - the Springfield Corners profile. Report to the Wisconsin Department of Natural Resources. Center for Watershed Science and Education, University of Wisconsin - Stevens Point. 41 p. Kraft, G.J., B.A. Browne, W.M. DeVita, and D.J. Mechenich.
- 2004. Nitrate and pesticide penetration into a Wisconsin central sand plain aquifer. Report to the Wisconsin Department of Natural Resources. Center for Watershed Science and Education, University of Wisconsin - Stevens Point. 48 p. Kraft, G.J., B.A. Browne, W.M. DeVita, and D.J. Mechenich.
- 2003. Nitrate impacts on groundwater from irrigated vegetable systems in a humid north-central US sand plain. *Agriculture, Ecosystems, and Environment* 100:63-74. Kraft, G.J. and W. Stites.
- 2001. Nitrate and chloride loading to groundwater from an irrigated north-central U.S. sand-plain vegetable field. *J. of Environmental Quality*. V. 30:1176-1184. Stites, W. and G.J. Kraft.
