1.  Connecting Grass Tops to Grass Roots  Room C+E
   Brian Christens, Associate Professor, Faculty Director of the Center for
   Community & Nonprofit Studies
   Paula Tran Inzeo, Assistant Director of the Center for Nonprofits

CONTINUED
Collective impact was introduced by Kania and Kramer (2011), which defined the term as “the commitment of a group of important actors from different sectors to a common agenda for solving a specific social problem”. Many collective impact efforts tend to focus on increasing alignment across agencies, the grass tops of communities. In order to ensure broad community support and sustained community capacity, collective impact groups would benefit from engaging everyday residents, the “grassroots”. Grassroots community organizing initiatives have many of the hallmarks of collective impact, albeit with somewhat different emphases. In this session we will describe the value of connecting grass tops and grass roots efforts and how community organizing can facilitate these connections and enhance collective impact frameworks.

2. **Lessons Learned**

With innovation comes risk, and sometimes, projects that fail, stumble or lead to unexpected consequences. Such efforts are rarely acknowledged or discussed but can be extremely valuable learning experiences. In this series of rotating roundtable discussions presenters will talk about their efforts and how they diverged from their intended paths. Opportunities will be provided for participants to discuss similar experiences and what they learned from them.

**Lessons Learned Presenters:**
- **Steven Deller and Carl Duley** – Frac Sand Mining and Buffalo County: Lessons Learned on Dynamics of Community Interaction
- **Angela Flickinger** – Strong Women and Fit Families Rock: Lessons Learned about the Approach Worked, But for a Different Audience
- **Patricia Malone and Catherine Emmanuelle** – Just Mining our Facilitation Business: Lessons Learned on Making Thoughtful Decisions When Consensus Cannot be Gained
- **Mary Ann Schilling** – Train the Trainer, or Not? Lessons Learned about Identifying Volunteer Trainers
- **Ruth Schriefer** – Photo Voice – Prompting Action? Lessons Learned When Communication Does Not Lead to Action
- **Bret Shaw** – Unintended Consequences of Objectively Negative Information: Lesson Learned from an Example of Reactance Theory

3. **Diving Deeper on Collective Impact**

For practitioners seeking to utilize the collective impact approach to enhance their community change efforts, this workshop will provide useful tools and strategies to build a common agenda, understand a shared measurement approach and use mutually reinforcing activities to get to shared outcomes. The participants will also understand the importance of focusing on continuous communications and the need to support a backbone infrastructure.

This interactive workshop is designed for those leaders seeking to dive deeper on collective impact as a framework for community change efforts.

**11:45am – 1:15pm Plated Luncheon - Capstone Mary Leuci,**
*Community Development Program Director, University of Missouri-Extension and Assistant Dean for the College of Food, Agriculture & Natural Resources*

**1:15pm**
*Conference Adjourns*

**Post-conference activities**

**1:30pm – 3:30pm**
*Community Development Academic Department meeting*
Marty Havlovic, *Chair*  
*Room I*

**2:00pm – 5:00pm**
*Family Living Program Evaluation training*
Lori Zierl, *UW Extension, Family Living Programs*  
*Room C*
