

# AGRONOMY FIELD DAY

Tuesday, August 29  
Montsma Farm  
Hwy. 151 and Co. Rd. TC, Lamartine  
10:30 a.m. - 2:30 p.m.

## Field Day Highlights:

Corn Hybrid /Soybean Variety Plots

Herbicide Field Plots

**Corn Silage Moisture Testing:** The Fond du Lac Co. Forage Council will have their silage chopper on-site for whole plant moisture determination. Bring along 4 stalks from a silage field (CUT FRESH!). Please have the following information with each sample: name, address, phone, E-mail or fax (if available), hybrid, and planting date. Samples must be on site by noon.
