

# Fall Forage Field Day

---

**When:** Wednesday, September 3rd  
**Where:** Vir-Clar Farm (Gary & Rose Boyke)  
N5119 County Rd. K, Fond du Lac  
**Time:** 11 a.m. - 2:00 p.m.

## -----Field Day Highlights-----

-

### **11am - 12:00 pm Corn Silage Moisture Testing**

Bring 4 stalks of corn from silage fields (maximum of two samples per farm) for whole plant moisture determination. Be sure samples are representative of entire field. Cut samples at normal cutting height. Stalks should be tied together and tagged with name, address, phone number, E-mail or fax (if available), hybrid, maturity, and planting date. There will be no charge for testing but samples need to be brought to the farm before 12:00 pm.

#### **Sponsors for this year's Corn Silage Moisture Testing Program:**

AgriLand Coop	Waupun Feed & Seed
Eldorado Farm Center	Chr Hansen
Jacobson Farmers Supply	Pioneer Hybrids
Cargill Animal Nutrition	Fond du Lac County Forage Council

### **11:45 Lunch**

The Fond du Lac County Forage Council will provide lunch for a nominal \$2.00 per plate charge.

### **12:30 - 2:00 Fall Forage Update Program**

**“Economics of Owning and Operating a Bunker Silo Facer”**

.....Dr. Brian Holmes, UW-Extension Ag Engineer

**Bunker Silo Facer Demonstration**

.....Demonstration and discussion of several facer machines from area dealers and manufacturers.

**Participating dealers/manufacturers:**

**Fritsch Manufacturing  
D&D Equipment  
Schraufnagel Implement  
Riesterer & Schnell**
