

Fall Forage Field Day

When: Tuesday, September 6th
Where: Second Look Holsteins (Hodorff Family Farm)
 N3816 County Rd. W, Eden (1st farm N of Hwy. 45)
Time: 11 a.m. - 1:30 p.m.

-----Field Day Highlights-----

11am - 12:00 pm Corn Silage Moisture Testing

Bring 4 stalks of corn from silage fields (maximum of two samples per farm) for whole plant moisture determination. Be sure samples are representative of entire field. Cut samples at normal cutting height. Stalks should be tied together and tagged with name, address, phone number, E-mail or fax (if available), hybrid, maturity, and planting date. There will be no charge for testing but samples need to be brought to the farm before 12:00 pm.

Sponsors for the Corn Silage Moisture Testing Program:

AgriLand Co-op	Waupun Feed & Seed
United Co-op	Jacobson Farmers Supply
Cargill Animal Nutrition	Vita Plus
Fond du Lac Co. Forage Council	

11:45 Lunch

The Fond du Lac County Forage Council will provide lunch for a nominal \$2.00 per plate charge.

12:30 - 1:30 Fall Forage Update Program

“Old and New Strategies for Covering Bunker Silos”
**Brian Holmes, UW Extension Ag Engineer**

“Wide Swath Haymaking”
**Mike Rankin, UW Extension Crops and Soils Agent**
