

## Direct Marketers' Connection... Great Farm Stuff

**W**ELCOME to your Direct Marketers' Connection! It features farmgrown foods for your enjoyment that are marketed directly to you.

This special listing ties together Wisconsin's largest industry -- agriculture- with another of its top segments -- tourism! But you don't have to be a Juneau County visitor to locate area farmers who directly market their products to discerning consumers. Everyone is welcome to shop at these local agribusinesses and, in the process, put more money into the pockets of the area's family farms.

Many consumers are now three to five generations removed from their agricultural roots. This guide helps re-connect people with the source of their food and fiber. By visiting these unique places and buying their products, consumers have a great opportunity to learn first-hand about agriculture today, the environmental care and respect practiced, and the attention to detail and quality production.
