Come Fish With Us

The Kenosha County Fishing Project is open to any 4-H member, who enjoys fishing and would like to know more about the sport.

It is the goal of the Kenosha County Fishing Project to have it's members:

- Promote conservation of our natural resources regarding lake habitat, and proper fish management.
- Learn responsibility by taking only legal size and limit, and by promoting catch and release.
- Learn proper and safe boating procedures.
- Obey rules posted on various lakes, such as size and bag limits, warning buoys, no wake zones, and the removal of weeds from the boat and trailer to prevent the spread of Eurasian Milfoil and other exotic species.
- Have our more experienced members be Junior Leaders and introduce beginning 4-Hers to the fun of fishing.
- Learn the finer points of fishing through classes, workshops, and outings.
