\* 1989 income has been adjusted to 1999 "dollars" to correct for inflation. The adjustment factor is from the Bureau of Labor Statistics Consumer Price Index (CPI-U-RS) - 187.0 for 1989 and 242.7 for 1999. The computed multiplier is 1.297861.

Based on these revisions, the factor to adjust to 1999 constant dollars in Table DP-3 would be 242.7/187.0, or 1.297861 (rather than 1.304650).
