Sewing Machines, Fabric and Notions for Nicaragua

On April 19th and 20th, I drove to Stevens Point for the state board meeting. While there, Lynda Pracht and I made a delivery to the warehouse in Stevens Point. I had eight boxes of fabric and notions along with three sewing machines, in my car and Lynda's car was packed full also. We logged in our delivery and stacked the boxes on a pallet.

Then on May 11th, June Smasal and I packed up her Suburban with 26 sewing machines, three sergers, and bags and boxes of fabric, and drove back up to Stevens Point. I opened the big door and June backed the vehicle up to it and we got ready to unload. We had just started when Mr. Bowen, the man who lives just across the road had seen us and walked over. He is very involved in the project and thanked us for bringing up the material and machines for the sewing centers. I think that all of the things you have donated will be in Nicaragua very soon. They were packing the boxes for shipment and expected it to be going quite soon.

So, I want to thank everyone for your donations and know that what you sent will be used and appreciated.
