

2009 Wisconsin 4-H Project Guide

This is your guide . . . A 4-H project is an area that you want to learn more about during the year. There are projects on just about any topic you would like to study and explore, from art to woodworking, from computers to rabbits, from clothing to small engines.

The projects and curriculum listed in this guide are only *recommendations* from statewide project committees. Not all of these projects may be offered in your county. Your county may also use different literature for the projects you select.

So how do you know what projects are available to you? Your club organizational leader or enrollment coordinator can tell you what projects and resources are offered in your county.

Don't forget to check out the project pages on the Wisconsin 4-H Web Site at www.uwex.edu/ces/4h/onlinepro/index.cfm. On these pages, you'll find descriptions for these statewide projects, Internet resources and links of interest, county fair exhibit suggestions, state specialist contacts, and other suggested 4-H resources.

And remember, you'll learn more than "subject matter" as you complete your projects. You'll learn many "life" skills that you'll use every day of your life, such as, understanding yourself, communicating better, solving problems, making decisions, and working with others. Good luck in your project selections. Have a great 4-H year!

How to Select 4-H Projects

4-H members . . . First, make a list of the things you like to do or want to learn more about. Talk over your list with your parents, leaders and friends. They may recognize some special things you are good at that you don't even realize you do well.

Then compare your list with the projects described in this guide and any other project list you may receive from your county. Ask yourself if you have the equipment, money and time to do the projects that sound interesting.

Your club organizational leader or enrollment coordinator will give you a form when you're ready to sign up for projects. You'll notice that each project has a computer code number assigned to it. Mark that code number on the form. (Don't use the "youth leader" project codes unless you're signing up as a youth leader for that project.)

Many projects have more than one level. If you've had a lot of experience in an area, you may want to skip the first or beginning level of a project. All projects also have grade recommendations. These are only recommendations.

If this is your first year in 4-H, concentrate on doing only two or three projects well. Usually you can spend more than one year in a

project unit because there are enough ideas there to span two or three years.

4-H leaders . . . If you're a 4-H adult leader, some project code numbers are just for you. For example, if you're a leader for all of the Shooting Sports project units, use code 60300. If there are several units within a project and you're a leader for only one, then use the project code number for that unit. For example, if you're a Shooting Sports leader for just archery, use code 60310. You'll need to make more than one entry if you're a leader for more than one project unit. For example, if you're a Shooting Sports leader for archery *and* air pistol, use codes 60310 *and* 60320. Youth leader codes all end in a "9."
