

## Aquatic Invasive Species

Aquatic invasive species (AIS) are present and threaten to alter the pristine waters of Oneida County. Although AIS are present in Oneida County waters, so far few lakes and rivers are truly infested with these species. The most effective and economical way to combat invasive species is to keep them from entering a water body in the first place. To date a volunteer force has been leading this charge by educating boaters at public landings and reminding them to remove all weeds hitchhiking on boat trailers. This campaign is generally known as

*415 Menominee Street*

*Minocqua, Wisconsin*

Wednesday, June 10, 2009

9:00 a.m. - Noon

*Three Lakes Community Center*

*6965 West School Street*

*Three Lakes, Wisconsin*

**Register Early!!**

**Seating Limited**

**25 Persons**

AIS threatens to:

- Choke out boaters and other recreators
- Damage fishing equipment
- Out compete native species
- Reduce wildlife food, shelters & nesting sites
- Consume eggs or young of native species
- Clog water intakes
- Denude lake bottom vegetation
- Create sharp and dangerous footing
- Destroy fish and wildlife habitat
