

2010 Forage Production Seminar

10:45 am—Registration
11 am—2:30 pm—Program

\$5.00 Includes lunch

Bremer Bank
(basement meeting room)
104 West Maple, Street,
Amery

Pre-register by March 23!

See below for pre-registration information!

Program Topics:

■ **How do we improve forage yields?** *Dr. Dan Undersander, Forage Agronomist, UW—Madison*

Dr. Undersander will cover the latest information on alfalfa management, fertility, and if alternative forages are a good fit for our area.

■ **Potato Leafhopper Scouting/Sweeping.** *Jerry Clark, Agronomy Educator, Chippewa & Eau Claire County UW—Extension*

Potato leafhoppers can cause significant damage to alfalfa yields in some years. Jerry will be on-hand to discuss leafhopper scouting and when it is and isn't economical to treat for leafhopper damage.

■ **Buying and Selling Corn Silage.** *Ryan Sterry, Ag Agent, Polk County UW—Extension*

Corn silage has been priced and sold with a variety of methods. There is no right or wrong way to do it, but there are many factors to consider as either a buyer or seller.

■ **Wisconsin Alfalfa Yield & Persistence Trial.** *Dr. Dan Undersander or Ryan Sterry*

A summary of the findings for this on-farm project looking at yield differences over time for Wisconsin alfalfa stands.
