## H1N1 Flu (Swine Flu)

Novel H1N1 (referred to as “swine flu” early on) is a new influenza virus causing illness in people. This new virus was first detected in people in the United States in April 2009. This virus is spreading from person-to-person, probably in much the same way that regular seasonal influenza viruses spread.

To help prevent the flu, first and most important: wash your hands. Try to stay in good general health. Get plenty of sleep, be physically active, manage your stress, drink plenty of fluids, and eat nutritious food. Try not touch surfaces that may be contaminated with the flu virus. Avoid close contact with people who are sick.

**Have Questions?** Please call 2-1-1 for information on the flu. 2-1-1 service will provide information on prevention and community resources. Your call to 2-1-1 is free and confidential, and is available throughout Wisconsin. If you call from a cellular phone and encounter problems, dial 877-947-2211.

## Reframing Challenging Behavior: The Art and Science of Teaching Social Emotional Skills—August 8

***WECA Super Saturday—Earn six hours of continuing education.***

Positive social emotional development lays the foundation for all learning. Join us to learn teaching practices to effectively guide young children’s development of critically important social emotional skills. This full-day session will provide a unique opportunity to delve more deeply into reframing our thinking, forging strong adult-child relationships, designing emotionally supportive environments, utilizing intentional teaching, and applying effective responses to challenging behavior. Training content is based on the teaching pyramid from the Center on the Social and Emotional Foundations for Early Learning. For questions or registration information call WECA at 800-783-9322 ext. 7227.
