WISCONSIN STATE FAIR PARK EMPLOYEES

Wisconsin State Fair Park (WSFP) employees, including but not limited to those involved in determining the eligibility for and the outcome of competitive events of the Wisconsin State Fair (WSF), are required to avoid situations and actions that could create doubt on the fairness of competitions. Participants in competitions and the public must have confidence that WSF competitions remain above reproach. To this end, WSFP employees shall abide by the State of Wisconsin's ethics and conflict of interest statutes and administrative rules as well as WSFP Board policies. See WSFP Ethics document located on the website at www.wistatefair.com for more information.

JUNIOR DIVISION

In the event Wisconsin State Fair rules conflict with other affiliated organizations/associations, the Wisconsin State Fair management reserves the final and absolute right to interpret these rules and regulations and to arbitrarily settle and determine all matters, questions or differences in regard thereto, or otherwise arising out of, connected with or incident to the Wisconsin State Fair. It further reserves the right to determine unforeseen matters not covered by these rules, to amend or add to these rules as they, in their judgment, may deem advisable.

All exhibitors are expected to conform to the Wisconsin State Fair Rules and Regulations. Any person who violates any of the following or special rules will forfeit all privileges and premiums and be subject to such penalty as the Wisconsin State Fair management may order (Failure to comply may result in award(s) and premium(s) forfeiture; and/or dismissal from the fairgrounds; and /or being barred from competition immediately in the department in which the violation has occurred and/or from all departments entered; and/or in future competition in the Wisconsin State Fair). In the event of conflict between the general rules and the special rules governing the various departments, the special rules will govern.

The following due process will be used in the questions of a rule violation: the Department Superintendent will question the exhibitor and/or parties involved. If it is felt that a violation has occurred, the Department Superintendent will make a ruling.

- 2) The judging time schedule is printed at the beginning of each department, and may be subject to change.
- 3) Animals must be in the ring within ten minutes after the class is called, and it will be assumed that any exhibitor failing to comply with this condition is not a contender for the premiums offered.
- 4) No animal shall be considered by the judges whose attendant is not displaying the correct exhibitor number during the competition. Also, groups will not be considered unless attendant in charge displays the correct exhibitor's number.
- 5) Each animal shall be exhibited to the entire satisfaction of the judges. After a class has been closed no animal(s) shall be permitted to leave the ring before the entire class has been judged without the approval of the judge. Upon final placing, exhibitors are requested to remain in position in line or parade while the Judge is giving his/her reasons. Any violation of this rule will cause forfeiture of all premiums won by the exhibitor.

In order to be a Junior exhibitor, the individual must pay an entry fee for an individual class and the animal must be checked in at the Fair.
13. **Junior Exhibitor Conduct:** The Superintendent of any department will have the authority without liability or recourse to the Wisconsin State Fair Park Board to bar any exhibitor or his representatives in the event of discourteous act to a judge or an official of the Fair, and he will have the power to disqualify the entry of that exhibitor. In the event of such disqualification, the exhibitor forfeits all fees paid as well as any prize money and awards won.

PREMIUMS AND AWARDS

- 1) Premiums will be paid as soon as possible after the end of the Wisconsin State Fair.
- 2) The signed judging sheets are the only recognized basis for payment.

Bins are located on the North side of the Livestock and Swine Barns, the West and North side of the Horse Barns, and the West and South side of the Old Cattle Barn. No paper should be thrown in with manure. Trash barrels are provided for food stuff, paper and general trash. Dumping of manure in trash barrels is prohibited.

- 8) Exhibitors entering registered animals will be required to furnish name and registration numbers of the animal at the time of entry, and to have registration certificate for said animal available for inspection at any time.

- 9) **Electrical equipment policy.** To prevent electrical and safety problems caused by worn, ungrounded and/or unapproved equipment all equipment that is not properly grounded or not conforming to the manufacturer's specifications for safety and usage will be disconnected. - 13) A fee of \$100.00 is required to place an official written protest. The fee will be retained by the Wisconsin State Fair if the protest is not sustained.
- 14) If a rule violation occurs which relates to market animal identification, exhibitors will have an opportunity to file a DNA protest with the superintendent by paying a \$100.00 protest fee. The protest will mandate a DNA hair test that will be compared to the sample submitted at the initial identification site. Exhibitors will be allowed to show, but premium money, awards and/or auction proceeds will be held until results of the DNA test are known. If the Fair DNA test matches the identification site DNA sample, premium money, awards and/or auction proceeds and the initial \$100.00 protest fee will be awarded to the exhibitor. If the Fair DNA test does not match the identification site sample, any premium money, awards and/or auction proceeds and protest fees will be forfeited. **The exhibitor will then be disqualified from showing at the Wisconsin State Fair for the following two years.**

PETS

Wisconsin State Fair Junior Fitting and Exhibition Rules

- 1) All junior exhibitors are expected to conform to the Wisconsin State Junior Fair participation and exhibition policies. Failure to comply may result in awards and premium forfeiture, dismissal from grounds, being barred from the immediate exhibition and being barred from future exhibitions. Refer to the "Junior General Rules and Regulations" located on the Wisconsin State Fair website at www.wistatefair.com.
- 2) Animals deemed uncontrollable and unsafe to exhibit will be dismissed from the show ring and/or Wisconsin State Fair Grounds. The three strike rule is in effect if an animal gets away three times in the show ring. Show management staff retains the right to warn the exhibitor and dismiss any animal deemed unsafe or uncontrollable at any time prior to a three strike rule. No premiums will be awarded

if an animal is dismissed. All exhibitors must show their own animals unless the Superintendent gives permission for another Wisconsin State Fair Junior exhibitor to show the animal.

- 3) Clipping and grooming of exhibits while on the Fairgrounds is to be done by the exhibitor, his or her immediate family, which includes father, mother, sister, brother or (legal guardian or stepparent with proof of relationship), and/or other participating Wisconsin State Fair junior exhibitors. Managerial animals cannot be fitted by the owner unless the owner is a junior or related as stated previously (mother, father, sister, brother, stepparent or legal guardian with proof of relationship to junior exhibitor). Failure to comply with this rule will result in animal disqualification, immediate exhibitor disqualification and possible future exhibitor disqualification.
- 4) All junior exhibitors and immediate family members are bound to the Wisconsin State Fair and IAFE code of ethics. Refer to the "Junior General Rules and Regulations" located on the Wisconsin State Fair website at www.wistatefair.com.
- 5) All junior exhibitors are **required to check in** with the Fitting Superintendent or his appointed designee. At that time they will be given a wristband which must be worn at all times while participating in junior show activities. Any wristbands that are lost or broken must be replaced immediately by going to the fitting superintendent's office.
- 6) **All family members wanting to participate in fitting or grooming activities must also check in** with the Fitting Superintendent or his appointed designee. They will also receive a wristband which must be worn while assisting with their family member's grooming activities. Failure to have the appropriate wristband will result in disqualification of the animal from exhibition and possible removal of the non-compliant person from the Wisconsin State Fairgrounds for interfering with Junior Fair rules.
- 7) The fitting wristband rules listed above do not apply when an animal needs to be held or moved from one location to another to ensure a safe environment for animals, exhibitors and Fairgoers, or to provide fitting or showing instruction.
- 8) Exhibitors determined to be in non-compliance of any of the junior fitting and grooming rules listed in the "Junior General Rules and Regulations" section or this section will be dealt with in the following manner: 1st offense = Animal in question will be disqualified from show and will not qualify for any premium monies. 2nd offense = Exhibitor will be disqualified from any further participation at the current Wisconsin State Fair. This disqualification will be for all departments and premium monies earned. Exhibitors may also be barred from participating in future Wisconsin State Fairs.
- 9) Exhibitors whose animals are disqualified may file a written protest with the Agriculture Director or designee prior to respective class participation. All protests must be accompanied by a \$100.00 protest fee which will be retained by Wisconsin State Fair if the protest is not sustained. Refer to protest procedure in the "Junior General Rules and Regulations" section located on the Wisconsin State Fair website at www.wistatefair.com.
- 10) The Fitting Superintendent reserves the right and responsibility to determine each exhibitor's and family member's compliance with fitting rules and regulations. The Fitting Superintendent also reserves the right to consult with the Agriculture Director or designee in any or all questions of compliance.

The remainder of this document is to clarify potential concerns about rule interpretations and identify specific rules in each species:

- a) 4-H leaders, FFA Advisors, County Chaperones, industry professionals and others are encouraged and allowed to give verbal or written educational instructions. This is an educational activity and learning by doing is Wisconsin State Fair's mission.
- b) The fitting and grooming guidelines are enforced for the duration of the respective Junior Fair department's exhibition.
- c) Active use or possession of show supplies or cattle grooming equipment in the direct vicinity of an intended animal will not be allowed for those persons without the appropriate wristbands.
- d) Enforcement of compliance will be based on visual observation of the infraction by the Wisconsin State Fair Fitting Superintendent or his designee. Video equipment and other technology may be used. Questions or concerns about interpretation and/or compliance and/or other exhibitor's compliance should be directed to the fitting superintendent or his designee.
- e) Only Wisconsin State Fair Junior swine exhibitors and Wisconsin State Fair swine staff will be allowed in the final holding area before entering the ring.

- f) In the Junior Beef show, only the exhibitor and one wrist banded family member will be allowed in the final staging and entrance area. The family member must leave the final staging area before the class enters ring.
- g) Normal management such as milking or feeding and barn/parlor management are not restricted in the Junior Dairy department in these guidelines.

IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS) NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to Junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

- 1) All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
- 2) Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
- 3) Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
- 4) Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be

administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, hair or other samples taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory, to which it is sent, is the one taken from the animal in question, it's integrity is preserved and all procedures of said collections and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian

- 5) Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter it's natural contour, confirmation, or appearance, external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
- 6) The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
- 7) Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. IN the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
- 8) No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
- 9) The application of this code of ethics for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
- 10) The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including *Fairs and Expos* and any special notices to members.
- 11) The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions provided by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

**2009 WISCONSIN STATE FAIR
ANIMAL HEALTH RULES AND REGULATIONS
SUMMARY**

If a fair or livestock exhibition lasts more than 24 hours, the sponsors shall appoint a licensed veterinarian to conduct a daily inspection of all livestock at the fair or exhibition. The veterinarian shall review

all records and test results required under ATCP 10.87. If a fair or exhibition lasts less than 24 hours, all records or test results required by ATCP 10.87 shall be reviewed by a licensed veterinarian or by the show chairperson. Records shall include exhibitors name and address, identification of animals exhibited including number, type and description, documentation to show compliance with disease testing and other health requirements, and the livestock premises code, if any, of the premises from which the animals originate.

This is a summary of DATCP animal health requirements for exhibition only. These requirements may change due to animal disease emergence in Wisconsin or other states, for example vesicular stomatitis in the western states. It is always advisable to check with the Division of Animal Health (608.224.4874) for the most recent health requirements when planning to exhibit animals. Animals meeting exhibition requirements may not meet all import or movement requirements for other purposes.

The fair and WDATCP have the right to make such tests and examinations as may be necessary to determine the disease status of any animal exhibited and to exclude or remove any animal afflicted with or suspected of being afflicted with a contagious or infectious disease. If at any time any animal shows evidence of a contagious or infectious disease, it shall be immediately removed from the exhibit and slaughtered or quarantined as directed by the department.

CATTLE AND BISON

Cattle affected with ringworm, warts, mange, or scab may not be exhibited, unless the veterinarian in charge determines the ringworm lesions or warts are inactive and incapable of transmitting the disease. Any cattle found with ringworm, warts, mange or scab that are active shall be removed from the premises of the fair.

Cattle originating from within Wisconsin

There are no test or health document requirements for Wisconsin cattle. However, fair management is responsible for maintaining records of persons who have exhibited at the fair, the livestock premises code, if any, and the identification of animals shown for 5 years. Acceptable forms of animal identification for breeding animals are (1) an official metal eartag, (2) a breed registration number, (3) a breed registration tattoo, or (4) other identification approved by the department. For steers, either an official identification as listed for breeding animals or the eartag applied at weigh-in may be used. Entry blanks submitted and signed by exhibitors, including one of the forms of identification listed above will fulfill the exhibitor requirements.

Cattle originating from outside Wisconsin

A certificate of veterinary inspection shall accompany all cattle documenting animal identification (see above) and all tests or certifications required. Animals must meet normal Wisconsin requirements for interstate movement.

Steers are exempt from any brucellosis test requirement.

Cattle from Brucellosis Certified Free herds in Class A states may enter Wisconsin without a prior brucellosis test if the certified herd number and the last test date appear on the certificate of veterinary inspection.

All cattle originating from Modified Accredited Advanced states shall have a negative tuberculosis test within 60 days of import. Call the Division of Animal Health for a current listing of these states.

Cattle imported from states not recognizing Wisconsin's Tuberculosis Free status shall be required to have a negative tuberculosis test for cattle within 60 days of import. Call the Division of Animal Health for a list of these states or review the department's web site at www.datcp.state.wi.us, Animal Welfare & Disease, Importing Animals into Wisconsin.

Cattle originating from Tuberculosis Accredited Free herds (except Michigan and Minnesota) may enter without a prior tuberculosis test if the accredited herd number appears on the certificate.

Cattle originating from Modified Accredited states (Michigan and Minnesota) must have a permit number, a certificate of veterinary inspection which includes a statement that the cattle will be returning to the state of origin directly after the show, and documentation of the special tuberculosis testing: Each animal attending a fair must have a negative individual TB test within 60 days of the date of import, and the herd the animal comes from must have a negative whole-herd TB test (for animals one year and older) within 12 months of the date of import. Exhibitors should contact the Division of Animal Health at 608.224.4874, well in advance of the fair, to determine any changes in the testing requirements. Turkeys that are not going directly to slaughter may not be commingled with other poultry. ADVISORY FOR HOUSING NON-TRADITIONAL LIVESTOCK AND FOR MANAGEMENT OF OTHER ANIMALS WHILE THE FAIR IS UNDERWAY:

The department makes the following recommendations, but these are not required by statute or administrative rule:

1. Exotic camelids (llamas, vicuñas, alpacas, and guanacos), other exotic ruminants and cervidae should not be housed with domestic cattle.
2. Ratites (ostriches, emus, rheas, and cassowaries) should not be housed with domestic poultry.
3. Swine should not be housed with other mammalian species.
4. Since bovine viral diarrhea (BVD), an infectious disease of cattle, can spread rapidly under the conditions of a livestock show, the department strongly recommends that all breeding cattle exhibited at the Wisconsin State Fair be properly vaccinated against BVD at least 30 days prior to the show. Exhibitors should consult with their veterinarians regarding the proper choice of vaccine and the correct schedule for its administration.
5. Cattle should test negative for BVD-PI by immunoperoxidase test and negative for Johne's disease by the ELISA test.
6. Common watering and feeding troughs should not be used.
7. All vehicles used to transport animals to and from the fair, or used at the fair, should be cleaned and disinfected prior to and after use for this purpose.
8. All animals found to be afflicted with a contagious or infectious disease must be promptly removed from the premises.
9. Hand wash stations should be provided near all livestock facilities.
10. All fair livestock entry forms should have a space for the Premises Registration Code.
