

“Environmental Youth Connections (EYC)”

*connecting your classroom to the
natural resources in our backyard
while earning cash!*

How does this work?

Just document your environmental education lessons (existing or new) into a standardized form, prepare an equipment list or example kit necessary to deliver your environmental education lesson, and match your lesson plans to a local natural resource site(s).

You could be paid CASH for 2-3 hours of curriculum development time!

I would be interested in: *(mark all that are appropriate)*

Submitting an EYC lesson/kit

Working with an environmental educator or environmental education volunteer to submit an EYC lesson/kit

Attending a workshop for the following program:

Leaf Learning Tree Project Wet Project Wild

Attending a workshop on the following dates:

March 26th March 27th April 2nd April 3rd

High School helpers (for yearly assistance with students)

Adult helpers (for yearly assistance with students)

EYC has a website for resources (lesson plans, kits, and maps), hands-on workshops (DNR or UWSP), environmental education links and county network connections. Check it out at

<http://www.uwex.edu/ces/cty/waupaca/> and click on “EYC.”

This upcoming Environment Youth Connections one day workshop for teachers and volunteers in the outdoor classrooms of Waupaca County is offered with four date options and curriculum options. Various outdoor sites will be determined by participant interest. These workshops will give participants the opportunity to develop lesson plans and activities that can be connected to local city, school, state, county or conservation club land.

Additionally, if you need a substitute to attend one of these workshops, EYC can repay this cost to the school district or organization.

There is also no registration cost to the workshop. Materials cost will be covered by EYC.
