(awareness of ground rules related to environmental area, ie natural items should not be removed, care for water's edge, stay on paths, avoid sensitive areas, etc.)

Procedure:

(specific steps to be carried out)

Review Lesson:

Student Observations and Questions for Discussion

Evaluation of lesson by students: (example of questions for discussion with student)

- Why is this important to the community?
- How could this activity be improved or supplemented?
- What laws or regulations impact this activity?
- Can you identify a service component to this activity?

Evaluation of lesson plan by teacher:

- How easy was this to use?
- Are there tasks missing or information that needs to be updated?
- Are there components or verbiage you would add or change to make this easier to use?
