

**Area Animal Science Day
Waupaca County Fairgrounds
Friday, June 26, 2009**

Area Animal Science Day is a great day focused on learning more about the animal sciences. We work in partnership with state specialists to host AASD and many volunteers are needed to help in a variety of capacities. We also hope many of our youth members take advantage of this educational event right here in Waupaca County. The last time Waupaca County hosted AASD was in 1995. The purposes of Area Animal Science Days are:

- To increase availability of educational opportunities in the 4-H Animal Science projects.
- To increase decision making skills through judging and grading experiences.
- To increase the knowledge of animals through breeding and market evaluation and management information.

If individuals or clubs are interested in helping at Area Animal Science Day or participating in one of the events complete the following information and return this form to Penny Tank, UWEX, 811 Harding Street, Waupaca, WI 54981 or email to penny.tank@ces.uwex.edu By May 1st.

2009 Area Animal Science Day Interest Form
