Waushara County UW-Extension

Waushara County engaged in a multijurisdictional comprehensive planning process led by Waushara County UW-Extension to prepare this plan. UW-Extension was successful in acquiring a grant through the Department of Administration, assembled the County Land Use Committee, and provided funding for municipal plan development. The countywide document was prepared utilizing adopted local comprehensive plans and assimilating portions of developing local plans prepared as part of the countywide process. Patrick Nehring was the community agent who led the planning process for UW-Extension.

East Central Wisconsin Regional Planning Commission (ECWRPC)

The Waushara County 20-Year Comprehensive Plan is composed of two documents – Volume One and Volume Two. Together, the two volumes contain all information necessary to meet state requirements.

This volume, “Volume One: Comprehensive Plan (Goals, Objectives, and Recommendations),” contains issues, goals, objectives, and recommendations for each of the nine required comprehensive plan elements for implementation over the next twenty years.

A companion document, “Volume Two: Existing Conditions Report,” contains an analysis of existing conditions within the County. Content was developed and/or assembled by East Central Wisconsin Regional Plan Commission (ECWRPC). Portions of Volume One also contain data produced by ECWRPC.
