

Working Across County Lines – Host Scott Reus

The discussion at the Working Across County Lines table was multifaceted and not necessarily on topic. We did discuss some of the realities regarding multi-county arrangements, such as:

- Whether or not to maintain multiple office spaces, to which the reply was generally a hearty NO from those who have tried it.
- How to manage the time percentages, in regards to professional development, managerial tasks, programming that is not exclusive to one county or the other, etc...
- How to report your activities to both your home county and to the secondary (tertiary) county(ies).
- Difficulties of maintaining relationships with multiple offices' staff.
- Expectations of such roles.
- And many miscellaneous thoughts.
