

# NIRSC 2006-2007 Price Structure and Sign Up

## Membership Categories & Fees

## Annual Fee

Regular	\$2500
Research/Nonprofit	\$1000
Sponsorship	\$1500
Collaborator	\$0
Instrument Company	\$2000
New Member Set-up	One time fee of \$1000

With participation in any of the following equations, the NIRSC may call for physical samples where applicable. Form and method of drying for samples will be specified for each project.

## A. Commercial Equations

### Equation Packages

### Products

### Fee

### Output

Equation Packages	Products	Fee	Output
<b>Basic Equations</b>	mixed hay, mixed haylage, alfalfa hay, grass hay, & fermented corn silage	no fee, comes with regular, research, and instrument memberships	DM, CP, ADF, NDF, minerals
<b>Second Level Equations</b>			
1. Hay/Haylage TDN	mixed hay, mixed haylage, alfalfa hay, grass hay	\$500 annual fee plus \$.25 per sample/ max total annual fee \$1500	dNDF48, RFQ, ash
2. Fermented Corn Silage TDN	fermented corn silage	\$500 annual fee plus \$.25 per sample/ max total annual fee \$1500	dNDF48, ash
3. Fermented Corn Silage Starch	fermented corn silage	to be determined	total starch
4. RUP	mixed hay, mixed haylage, alfalfa hay	\$2000 One-time WARF license fee	RUP in alfalfa and mixed hay & haylage

**REBATES: \$500 rebate for each TDN equation package** if submit a # of spectra with chemistry greater than 10% of a lab's volume for that package, for any constituents; eg. DM, CP, ADF, NDF, minerals, ash, etc., and that lab is an NFTA A or B lab.

**\$200 rebate for each TDN equation package** if submit a # of spectra greater than 10% of a lab's annual volume for that package with no wet chemistry.

**B. Small Group Equations  
Equation Packages**

	<b>Fee</b>	<b>Output</b>
Unfermented Corn Silage	Annual cost sharing among those participating	dNDF48, starch, ADF, NDF, CP

**C. Seed Breeders Equation  
Equation Packages**

	<b>Fee</b>	<b>Output</b>
Alfalfa Seed Breeders	Annual cost sharing among those participating	DM, CP, ADF, NDF, ADL, ash, dNDF48, RUP

\*Must be a participant in the seed research group.
