

**North Central NELD
Seminar 3: Leading in a Multi-Cultural World
September 21-24, 2005**

**Embassy Suites
Montgomery, Alabama**

Desired Outcomes:

Participants will engage in experiences that demonstrate the richness that cultural diversity brings to Extension. The outcome of the session is to help us apply insights from these experiences to create new ways of leading the Extension system toward increased relevancy in a multicultural society.

Objectives:

1. Seek to understand those different from ourselves and become more aware of our own cultural identity and the similarities and differences that exist between and among people.
2. Use your Discovering Diversity Profile to reflect on knowledge, understanding, acceptance and behavior in the work place, and develop an action plan.
3. Deepen our understanding of our nation's experience during the civil rights struggles of the 60's and how that affects us today as we seek win-win thinking and actions.
