

EMTC Agenda for Thursday, November 12, 2009

12:20-1:00pm, connect to the ICS MCU using whatever available codec you have.

1:00pm, Jay welcomes everyone and opens the meeting. Welcomes new members.

1:15-2pm, Tom Smith (Public TV engineer and Society of Broadcast Engineers Chapter 24's Frequency Coordinator) will talk about what a Frequency Coordinator does and then dive into the impacts of digital television broadcasting and FCC reassignment of analog television bandwidth to new wireless services, and what this means to our legacy wireless microphones, ALS systems, and other equipment using the VHF/UHF bands.

2:00-2:30pm, Discussion on planning for the continuation of technical services and support of classes. Some of you have already shared your campus plans with the list. If you have additional papers (Word or PDF) please send them my way.

2:30-2:45pm, break

2:45-3:15pm, Discuss new Area Code in Wisconsin's northwest LATA, schedule, overlay and impacts.

3:15-4:00pm, Business Meeting

- * Old Business
- * New Business
- * Campus updates

4:00pm, adjourn
