

Transcript of Video Learning Object: Bill Kirby and Rick Mitchell

I'm going to go ahead and play the game, and I'm hoping that you're playing this along with somebody else out there. And if you're not with somebody else, you can just try it yourself or play against me.

I'll take a few moments to give you some experience with this. I rolled a nine, so I need to be able to take off nine units. And, of course, I can't do that right now unless I make some trades, so I'll trade in a long for ten units. And once I do that, now I can take off nine.

And so I would roll again. And I rolled a five. And this time I have to make some big trades. I have to be able to break up this flat. So I'll trade in the flat for ten longs. But I'm still going to have to trade a long for some units. And now I'm able to pull off some.
