

APPENDIX D

PARTICIPANTS, PROCESS

Appendix D

Participants and Process

Members of the Plan 2008 Committee (See attached copy of the list) developed Phase II of the UW-Extension Plan 2008 working through division Plan 2008 liaisons whom consulted and collaborated with division deans, directors, administrators and managers.

The committee worked within the Plan 2008 Phase II guidelines issued by the UW System Office of Academic Diversity and Development, and the Board of Regents Resolution, which defined Phase II priorities. The Committee, while striving to remain true to the UW-Extension mission and build upon “lessons learned” during the first phase of Plan 2008, evaluated past efforts to identify programs that worked, eliminate those that did not or were not “doable”, and restructure Phase II plans to strengthen programs and initiatives that will:

- 1) Close the achievement gap;
- 2) Create stronger linkages between UW-Extension precollege participants and campus programs; and,
- 3) Build the educational pipeline for disadvantaged (economically and educationally) students and for students of color.

The Broadcasting and Media Innovations (BAMI) team that developed its Plan 2008 Phase II programs and initiatives included the director, the management team, human resources staff and program staff. The State Director, Associate Director and Plan 2008 Liaison for Business and Manufacturing Extension developed the initiatives for that division. District Directors, State program leaders, and other unit managers in Cooperative Extension developed their Plan 2008 Phase II programs and initiatives. In General Education Administration and General Education Administrative Services, the Director of Equal Opportunity and Diversity Programs in collaboration with the Assistant Chancellor of Finance and Administration, and the Director of UWEX Human Resources developed the programs and initiatives for those divisions.
