

WI Barn Adaptive Reuse Projects

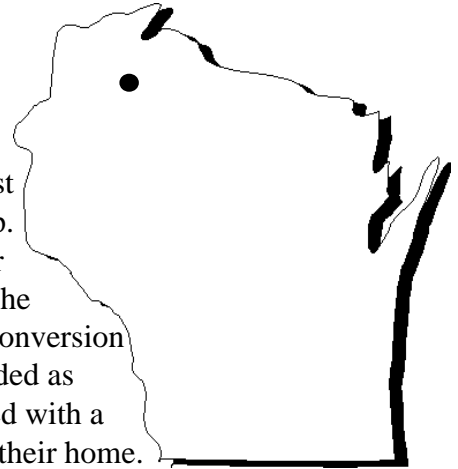

University of Wisconsin- Extension

Present Use: Antique Shop - Nordik Sleigh
Type of Barn: NA

Owner's/ Contact Person's Name: Larry and Nancy Johnson
Address: HC 73, Box 826, Hwy. M
Cable, WI 54821

Date of Conversion: NA
Approximate Project Cost(s): NA

Brief Outline of Project: This sixty year old barn, located just south of Cable, Wisconsin on Highway M, houses an antique shop. The first floor of the barn has been converted into a showroom for the antique shop while the second floor provides storage space. The barn was originally built to store up to 10,000 bales of hay. The conversion included jacking and leveling the hayloft floor. A dormer was added as decor. The barn is not heated. The hayloft door has been weighted with a cable for easier use. Larry and Nancy eventually want to make it their home.

Success of Project:
