LOCAL LAND USE PLANNING AND ZONING
2001-2002 ETN SERIES

November 15, 2001 (Thur.), 10:30-11:50 a.m. -- LOCAL REGULATION OF CELL TOWERS #1641-2 -- While demand for cellular phone services is increasing, communities have concerns over the siting of wireless communication towers. This program will briefly cover the federal law that limits local regulation of cell towers, and will consider permissible local regulation (especially co-location requirements), as well as the industry's perspective on this issue. -- *Brian Ohm, Extension Land Use Law Specialist, Department of Urban & Regional Planning, UW-Madison; Todd Violante, Senior Planner, Dane County Planning & Development Department; Frank Dobbs, Zoning Manager, Wireless Facilities, Inc., Milwaukee; Allen Davis, Community Development Director, Town of Grand Chute.*

December 20, 2001 (Thur.), 10:30-11:50 a.m. -- DOWNTOWN REVITALIZATION: LESSONS LEARNED #1641-3 -- In this decade of Smart Growth, communities across the state are taking stock and re-evaluating investments in their traditional business districts. Much has been learned by communities actively involved in the process of downtown revitalization. This program will bring together community representatives and Extension specialists engaged in downtown revitalization to discuss recent trends, successful strategies and lessons learned. -- *Hosted by Charles S. Law, Community Planning & Design Specialist, Local Government Center, UW-Extension, Madison.*

January 31, 2002 (Thur.), 10:30-11:50 a.m. -- RECENT RELEVANT CASE LAW #1641-4 -- This program will highlight recent Wisconsin cases and attorney general opinions, as well as important federal cases, relating to land use planning and implementation. -- *Richard K. Nordeng, attorney, Stafford Rosenbaum, LLP, Madison.*

February 21, 2002 (Thur.), 10:30-11:50 a.m. -- LOCAL REGULATION OF LIVESTOCK OPERATIONS #1641-5 -- While animal agriculture is one of the mainstays of the Wisconsin economy, the siting and expansion of farms, as well as residential and other development in agricultural areas, may raise concerns over such matters as odor, water quality and compatibility of neighboring uses. This program will consider, within the context of comprehensive planning, approaches to the local regulation of animal livestock operations. -- *Merritt Bussiere, Land Use Specialist, UW-Extension, Green Bay; Richard Castelnuovo, Ordinance Specialist, Department of Agriculture, Trade & Consumer Protection, Madison Office; and Bruce Haukom, Zoning & Planning Administrator, Jefferson County; and a livestock producer (invited).*

March 21, 2002 (Thur.), 10:30-11:50 a.m. -- THE NONPOINT SOURCE PROGRAM REDESIGN #1641-6 -- The Department of Natural Resources, in cooperation with other state agencies and several advisory committees, has been developing new and revised rules to deal with the problem of polluted runoff from urban and rural areas. These rules cover such topics as agricultural and non-agricultural runoff management, construction site erosion control, stormwater management, animal feeding operations, and best practices and grants. This ETN program will provide an overview and update on this important initiative. -- *Russ Rasmussen, Runoff Management Section Chief, Division of Water, Department of Natural Resources, Madison Office, and agency staff.*

April 18, 2002 (Thur.), 10:30-11:50 a.m. -- GROWING COMMUNITIES--GREENING COMMUNITIES: LOCAL MANAGEMENT OF STORMWATER & FLOODWATER #1641-7 -- This annual program provides strategies and new ideas for growth with environmental stewardship principles as a priority. This year's program focuses on local government management of storm/flood water. Recent changes in state and national regulations impact local and regional management decisions. Innovative strategies value ecosystem dynamics over local political boundaries. -- *Hosted by Elaine L. Andrews, Environmental Education Specialist, Environmental Resources Center, UW-Extension, Madison.*

May 16, 2002 (Thur.), 10:30-11:50 a.m. -- FUNDING COMMUNITY REVITALIZATION PROGRAMS: WISCONSIN'S BUSINESS IMPROVEMENT DISTRICTS (BIDs) #1641-8 -- Today's communities need to be more creative than ever before in funding community development programs. This session will explore some of the more popular funding options and discuss in detail the development of special assessment districts such as BIDs. -- *Hosted by Charles S. Law, Community Planning & Design Specialist, Local Government Center, UW-Extension, Madison.*

UW-Extension provides equal opportunities in employment and programming, including Title IX requirements.

ABOUT THIS SERIES

The Educational Teleconference Network (ETN) links speakers and participants across the state.

Participants at ETN locations may ask questions and share ideas with the speakers and other listeners during each program.

This series of seven ETN programs is designed to provide information to county, city, village, and town officials charged with adopting and administering land use planning and regulatory programs.

Program hosts are James H. Schneider, J.D., Local Government Specialist, Local Government Center, UW Extension-Madison; and Brian W. Ohm, J.D., UW-Extension Land Use Law Specialist, Department of Urban & Regional Planning, UW-Madison.

REGISTRATION INFORMATION

There is a \$11 fee per session. You may register for the entire series for \$60, for individual programs or for materials only. Written materials supplementing the topics will be sent to the ETN sites for participants who register at least 10 days prior to the program. Those registering for materials only will receive a direct mailing of program materials.

Information only: (608) 262-9960
Telephone registration: (608) 262-0810
FAX registration: (800) 741-7416
Mail registration: Pyle Center
ETN Registrations
Dept. 111, Room 139
702 Langdon Street
Madison WI 53706-1487

[Make check payable to: UW-Extension]

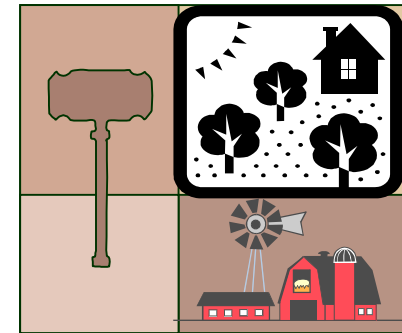

Be sure to register early so that materials can be sent to your ETN site in time for the session.
