UW-Extension Academic Staff Council and University Committee Resolution

Whereas the UW System is critical to the long term recovery and success of Wisconsin's economy and

Whereas UW faculty and academic staff already lag behind in salary and other compensation compared to other peer institutions and

Whereas the faculty and staff want to be part of the state budget reform solution and do not expect to be held harmless

Therefore, be it resolved that the Academic Staff Council and the University Committee of UW-Extension support maintaining the 2% pay increase as outlined in the 2007-2009 pay plan and that UW System be allowed to manage and minimize the impact of furloughs and any additional budget cuts to the extent possible.
