How does UW-Extension Respond to Information Requests – Don Taylor

- A recent experience to assist an academic staff member prompted an open records request. Clarity and policy is needed as to what documents are public vs personal. David Prucha reminded us that any information regarding the work of the state should be considered open and public. If it's related to work, it's a public record whether you are using your personal or work email account. After much discussion, it was suggested that a workgroup be created to work on institutional guidelines bringing clarity to what's a public record and what needs to be shared upon request as well as a consistent and timely process for releasing the information. Also needing clarity is what information can be withheld?
- Workgroup members include: Kathy Eisenmann, Michael Childers, Tim Rehbein, Don Taylor, Yvonne Horton, Jason Beier, David Prucha. A representative from youth development is needed as well as a workgroup chair.
- It was suggested that a professional development offering be created around this topic. Revisit this topic at the Joint Meeting in May.

Update: Cooperative Extension Support System and SIPR Results – Yvonne Horton

- SIPR survey results are being discussed at Regional Meetings (already discussed at NW and SW). Feedback received indicated that the 360-degree tool is cumbersome, constraining, dated and not very visible. More opportunities for regular performance review feedback is needed. The new system is set to be in place by end of 2014.

Discussion: Status of “Job Sharing” in Coop Ext – Yvonne Horton

- Faculty members are finding themselves working from two different job descriptions vs job sharing from one job description. When this situation occurs, it is unclear the role of faculty. Discussion followed.

Faculty Performance Reviews – Kathy Eisenmann
• An ad hoc committee (Kathy Eisenmann, Craig Saxe, Donna Duerst) has been appointed to gather information on why performance reviews are not always being provided and to emphasize that each faculty member is entitled to a review. The group is waiting for feedback from Eric Carson and Michael Childers.

Governance Involvement in Future Pay Plans Based on Merit – Greg Hutchins
• Merit for high performers was discussed including developing a tool for evaluating and a process decision making and distribution.
• Should this be handled at the divisional level? Discussion uncovered varied ways of approaching who might be in line for a merit increase.
• Should this be handled at the institutional level? Should a percentage of the dollars go to each group (faculty, academic staff, classified staff)?
• Council members shared that academic staff members have a full plate due to staff reduction making it difficult to be meritorious.
• It was suggested that we should research other campus models … UW-Madison, UW-Oshkosh, UW-Stevens Point.
• The Council recommended that they be included (along with Classified Staff Council) when the merit model is being developed.
• It was suggested that Aaron provide an update that might include progress thus far and next steps.
